

A GENDER ANGLE ON THE HIGH PERFORMANCE TEAM

AND

IEEE WOMEN IN ENGINEERING NIGHT

A GENDER ANGLE ON THE HIGH PERFORMANCE TEAMS

Have you ever wondered how you can make your teams perform better?

Do you want to know how to better use the talent of your team?

In this interactive session, you will learn what makes teams more intelligent, the main pitfalls that teams fall into and how to avoid them. After this session you will have a better understanding of how to make the teams perform well, use everyone's capabilities and have everyone's voice heard. Refreshments are served.

IEEE WOMEN IN ENGINEERING NIGHT

Join us for our inaugural IEEE Women in Engineering night: a fun night of networking, music, dance and food.

Please go to the link below to RSVP. Only a limited number of spots are available. This event is free for all the IEEE WIE members, and if you are an IEEE student member, your WIE membership is free.

Registration

Please RSVP for each event using these links:
